

INDIAN MARITIME UNIVERSITY

(A Central University under the Union Ministry of Shipping)

School of Maritime Management

Regulations & Syllabus

for

Master of Business Administration (MBA)

in

Port and Shipping Management

FOREWORD

Since its inception in 2009, the School of Maritime Management of the Indian Maritime University has been offering two specialised MBA programmes – MBA (Port and Shipping Management) and MBA (International Transportation and Logistics Management). A majority of the subjects taught in the 2 MBAs were general management subjects, and there was a felt need to completely revise the curricula, giving greater emphasis to topics in Shipping, Ports and Logistics. Analysis of Case Studies was not part of the curricula, and this was a serious lacuna for a Management programme. The reconstituted School Board, with good support from the faculty, has completely revised the curricula of the 2 MBA programmes so as to bring them in tune with the changing dynamics of business, economics and maritime industry practices around the world. Whereas formerly subjects dealing with Shipping, Ports and Logistics numbered only 8 in the case of MBA (ITLM) and only 10 in the case of MBA (PSM) out of a total of 24 subjects, after the curricula revision, the number is 14 out of the same total in both MBA programmes. The course materials, pedagogy and evaluation criteria have been suitably redesigned. I am confident that the revised curricula of the 2 MBA programmes will meet the expectations of key stakeholders viz., students, faculty and the shipping, port and logistics industries.

Shri K. ASHOK VARDHAN SHETTY
Vice Chancellor, IMU and Chairman,
School Board of Maritime Management

3rd August 2015

MEMBERS OF SCHOOL BOARD OF MARITIME MANAGEMENT

1	Shri K Ashok Vardhan Shetty Vice Chancellor IMU	Chairman
2	Dr A Mourougane Associate Prof. & Head School of Maritime Management , IMU Chennai Campus

PROGRAMME REGULATIONS

1. About the University:

The Indian Maritime University (IMU) was established through an Act of Parliament (No. 22 of 2008) on 14th November 2008. As a Central University, it is poised to play a key role in the development of required human resources for the maritime sector. The IMU, being the first of its kind in the country will cater to the educational requirement of the maritime fraternity. IMU has a panel of dedicated and experienced faculty members, state of the art infrastructure and efficient administration. IMU's strength and uniqueness lie in its ability to integrate theories and practices and its commitment to provide quality maritime education, training and consultancy. The headquarters of IMU is located at Chennai and regional campuses are at Chennai, Mumbai, Kolkata, Visakhapatnam and Cochin.

2. MBA Programmes by SMM:

The Indian Maritime University offers two unique MBA Programmes under the School of Maritime Management, since academic year 2009-10 viz., MBA in Port & Shipping Management and MBA in International Transportation & Logistics Management. The duration of the MBA programme is two academic years with each academic year divided into two semesters. The odd semester functions from August to January each year and the even semester from February to June. There shall be not less than 90 working days in each semester. The University also encourages enrolment of candidates sponsored by government/private organizations to pursue the full time programme.

MBA in Port & Shipping Management is designed to provide the students with adequate skills and knowledge in functional areas of the Port and Shipping sector. It also gives a holistic understanding of the sector integrating various aspects viz. Port management, Maritime business environment and Shipping economics apart from a thorough grounding on general managerial skills. This helps the students to tap into opportunities not only in port, shipping and logistics sector but also into other sectors of the economy.

MBA in International Transportation & Logistics Management is a unique program to train students on the management of the domestic and international transport in the rapidly changing business environment. Logistics management assumes palpable significance as commercial activities related to movement of cargo plays a vital role in the fast paced competitive businesses. Students are thoroughly exposed to principles of Supply chain, Warehousing, Containerisation, and Strategic sourcing in business. The Logistics and Transport sector is one on a fast-track growth and the students gear up to match the requirement of the Industry.

3. Entry Requirements:

For entry into both the MBA programmes, the following are essential:

- A degree from a recognized University with a minimum of 50% marks in aggregate. A relaxation of 5% in eligibility marks to SC/ST candidates is given.

- A minimum of 50% marks in English subject (Secondary/Higher Secondary/ UG degree). The relaxation of 5% will not apply to English Marks.
- A valid IMU- CET (Common Entrance Test) score conducted in that academic year. IMU-CET is being conducted every year in April/May for admission to the MBA Programmes.

4. Payment of Fee:

The course fee, for the programme, is Rs 2 lakhs per year. Both the programmes are non-residential. However, in case of availability, hostel facility may be provided to interested students on payment of prescribed hostel fees as per University norms. Women students are offered Hostel facilities inside the campus for which currently a fee of Rs. 60,000 per year and a caution deposit of Rs. 20,000 are being collected. Apart from the course fee, candidates are required to pay the prescribed examination fee at the time of appearing for the semester examinations.

5. Credit Systems:

The University follows the "Credit System" for both the programmes. Each lecture-based course in this programme carries 4 credits. The field work-based courses of Project work and Internship carry 8 and 4 credits respectively. For successful completion of the programme, a minimum of "100 credits" is essential.

6. Attendance:

All students must put in a minimum of 75% of attendance in order to appear for the university end-semester examinations (theory and practical). The minimum percentage of attendance will be calculated only in terms of the total working days in the semester and not in terms of classes or subject-wise.

7. Condonation Fee:

If a student has put in less than 75% but has above or equal to 65% of attendance, owing to reasons such as medical, bereavement or any other legitimate reason, the Campus Director / Principal is empowered to condone the shortage of attendance subject to the collection of prescribed Condonation Fee for Attendance as per the University norms.

8. Break-in-Studies:

A student who has put in less than 65% attendance will not be permitted to write the University's end semester examination and further will not be permitted to move to the next semester. It will be treated as a case of "Break-in-Studies" and he will be required to repeat the incomplete semester in the next academic year. However, such students are permitted to write the arrear examinations of previous semesters. Before rejoining the programme, he/she must obtain due permission from the Vice Chancellor after which he is required to remit the following fees:

- (i) The condonation fee for 'Break in Studies' as prescribed by the university
- (ii) The semester fees for the concerned semester once again where he/she is repeating an incomplete semester.

9. Programme Completion:

Students, enrolled for an MBA programme shall complete the same within a maximum of 4 years duration, from the date of enrolment to the respective programme.

10. Continuous Internal Assessment:

Each course faculty will continuously assess the students based on their performance viz. Case study discussion, Paper presentation, Quiz, Written/Oral Test, and Assignments. Case method as a pedagogical tool is adopted for all courses. The maximum internal assessment mark for each course is 40. There is no minimum pass mark in the internal assessment. The breakup of internal assessment marks will be as follows:

- a. Internal Tests (best 2 out of 3) - 10 Marks
- b. Class participation - 05 Marks
- c. Individual assignment & presentation- 10 Marks
- d. Group assignment & presentation - 15 Marks

Total		40 Marks

11. Internship:

Each student, for both the programmes, is required to undergo an individual internship for a period of minimum forty-five (45) days and maximum of sixty (60) days during their summer break of the first year. The students are attached to a reputed port/ shipping/logistics related company as an intern and prepare a report about the learnings undertaken during the period. After completion of internship, they are required to submit an individual 'Internship report' to the department, within 15 working days from the date of commencement of their third semester. This report will be assessed jointly by two examiners (Internal and External) for a maximum of 75 marks (3 credits). The Viva Voce examination will be conducted jointly by the two examiners for a maximum of 25 Marks (1 Credit).

12. Project work:

Each candidate shall be required to take up an individual Project at the beginning of the IV semester. These projects shall be completed under the guidance of faculty members within the University. The respective guide shall be responsible for certification of the data and shall guide the student in drafting the final report.

The students are required to submit their project proposal at the end of the third semester well before the winter break commences and get the same approved by the department. The students may choose to work on projects related port/shipping/logistics area, conduct appropriate studies/research

before submission of findings in the form of a research report. A student has to submit three copies of the project research report to the guide on or before the specified date. The Project report will be evaluated jointly by two Examiners (Internal and External) for a maximum of 150 Marks (6 Credits).

The Viva-voce will be conducted by the two Examiners for a maximum of 50 Marks (2 Credits). The student may retain one copy after due certification by the guide and the Head, SMM. The guide shall retain one copy and send one copy to the department library after the Viva Voce Examination. The student who fails to submit his /her project report at the end of the respective academic year shall be permitted to submit the same only at the end of the subsequent academic year along with the ensuing batch.

13. University Examinations:

The University examinations, for the both the programmes, will be held towards the end of each semester for duration of three hours per course for a maximum of 60 marks with a passing minimum of 30 marks.

14. Passing Minimum:

The internal assessment component does not have any passing minimum. The passing minimum is 50% of the University examination in each course. The overall passing minimum (for 100 marks) is computed by totaling the internal assessment marks and the University examination marks obtained by each student.

15. Question Paper and Evaluation:

The question paper for all the courses, for both the programmes, will be set for a maximum mark of 60 and will have three sections Section A, Section B and Section C. Questions in each section for will be taken evenly from each unit of the prescribed syllabus.

SECTION A (12 x 1 = 12 Marks)

Section A will comprise of 12 multiple choice questions, all of which will have to be answered and evaluated for 1 mark each.

SECTION B (5x 4 = 20 Marks)

This section will consist of seven questions, out of which any five may be chosen. Answers to these questions should not exceed 200 words each. Each answer will be evaluated for 4 marks.

SECTION C (4 x 7 = 28 Marks)

This section will consist of six questions, the first of which will be a case study/ analytical problem and is compulsory. Out of the remaining five questions the students may answer any three. An analytical question may be framed in those courses where case discussion is not suitable. The analysis/answer shall not exceed 500 words and will be assessed for 7 marks each.

Question Paper Pattern

SECTION – A Multiple Choice Questions (MCQ)

Answer all the Questions: 12 x 1 mark = 12 marks

11. Internship:

Each student, for both the programmes, is required to undergo an individual internship for a period of minimum forty-five (45) days and maximum of sixty (60) days during their summer break of the first year. The students are attached to a reputed port/ shipping/logistics related company as an intern and prepare a report about the learnings undertaken during the period. After completion of internship, they are required to submit an individual 'Internship report' to the department, within 15 working days from the date of commencement of their third semester. This report will be assessed jointly by two examiners (Internal and External) for a maximum of 75 marks (3 credits). The Viva Voce examination will be conducted jointly by the two examiners for a maximum of 25 Marks (1 Credit).

12. Project work:

Each candidate shall be required to take up an individual Project at the beginning of the IV semester. These projects shall be completed under the guidance of faculty members within the University. The respective guide shall be responsible for certification of the data and shall guide the student in drafting the final report.

The students are required to submit their project proposal at the end of the third semester well before the winter break commences and get the same approved by the department. The students may choose to work on projects related port/shipping/logistics area, conduct appropriate studies/research

before submission of findings in the form of a research report. A student has to submit three copies of the project research report to the guide on or before the specified date. The Project report will be evaluated jointly by two Examiners (Internal and External) for a maximum of 150 Marks (6 Credits).

The Viva-voce will be conducted by the two Examiners for a maximum of 50 Marks (2 Credits). The student may retain one copy after due certification by the guide and the Head, SMM. The guide shall retain one copy and send one copy to the department library after the Viva Voce Examination. The student who fails to submit his /her project report at the end of the respective academic year shall be permitted to submit the same only at the end of the subsequent academic year along with the ensuing batch.

13. University Examinations:

The University examinations, for the both the programmes, will be held towards the end of each semester for duration of three hours per course for a maximum of 60 marks with a passing minimum of 30 marks.

14. Passing Minimum:

The internal assessment component does not have any passing minimum. The passing minimum is 50% of the University examination in each course. The overall passing minimum (for 100 marks) is computed by totaling the internal assessment marks and the University examination marks obtained by each student.

SECTION – B (200 words)

Answer any 5 out of 7 : 5 x 4 marks = 20 marks

SECTION – C (500 words- Case study/Analytical problem/Essay)

i. Question 1 of the section is compulsory: 1 x 7 marks = 07 marks

ii. Question 2 to 6- Answer any 3 out of 5: 3 x 7 marks = 21 marks

TOTAL= 60 marks

16. Evaluation of Answer Scripts:

Answer scripts of the University examination will be subjected to double valuation by a Panel of Examiners constituted by a competent authority. Where there is variation of more than 15% of marks between the first and second valuation, the paper shall be sent for third valuation. The final marks shall be the "average of the third valuation and the nearest among the first and second valuation". However, Guidelines for valuation and 'Declaration of Results' framed by the competent authority from time to time will apply.

17. Arrear paper:

A student with arrears can repeat the papers along with the subsequent semester examinations. In such cases, the internal marks obtained by the student will be carried over for computation of total marks.

18. Classification of Marks:

The classification of marks will be as follows.

- 75% of the marks and above – Distinction
- 60% and above but below 75%- I class
- 50% and above but below 60% - II class
- Below 50 % - Fail

19. Consolidated Mark Statement:

The consolidated marks statement indicating marks scored in all the courses will be issued when the students pass all the courses of the respective MBA programme. The fee for consolidated marks statement is to be remitted along with the examination fee while registering for the IV semester examination.

20. Rank Certificate:

For each specialisation, meritorious students who secure the first "THREE" ranks in the overall performance (internal assessment and the university examination) in the first attempt itself will be issued Rank Certificates on a written request through prescribed form.

21. Provisional Certificate:

For those who are declared qualified for the M.B.A degree, Provisional Degree certificate will be issued in person or sent by post after publication of the

results. All the students have to pay the fee for the provisional certificate along with fourth semester examination fee.

22. Award of Degree:

Students who have successfully completed the programme within the stipulated period will be awarded the degree of Master of Business Administration in the respective specialisation. For those who are declared qualified for the MBA degree, the convocation form will be issued. The degree certificate will be issued to the students only if they apply for the same in the prescribed convocation form, along with the fee specified in the application form. The degree will be conferred in person or in absentia as requested.

SYLLABUS

SEMESTER – I

1. Principles and Practices of Management
2. Managerial Economics
3. Financial Accounting and Management
4. Communication Skills
5. Human Resource Management
6. Marketing Management

PG21T2101- PRINCIPLES AND PRACTICES OF MANAGEMENT

Objective: 72 Hrs

This course presents a thorough and systematic coverage of management theory and practice. It focuses on the basic roles, skills and functions of management.

Unit I: Global Management -Theory and Practice 12 Hrs

Definition of Management– Nature- Purpose- Science or Art- Development of Management Thought– Contribution of Henry Fayol and F W Taylor- Approaches to Management- Functions of Managers- Social responsibility of Managers– Ethics in managing- International management- MNCs- Country alliances- Cultural differences- Porter’s competitive advantage of Nations.

Unit II: Planning and Decision Making 15 Hrs

Planning: Essentials of planning- Types- Planning process- Objectives- Management by Objectives- Strategies- Policies and planning premises- Blue ocean strategy - Portfolio matrix- Premising and Forecasting.

Decision Making: Importance- Limitations of rational decision making- Evaluation of alternatives- Selection of alternative–three approaches- Programmed and non-programmed decisions- Creativity and Innovation.

Unit III: Organising and Staffing 20 Hrs

Organising: Nature- Formal and informal organisation- Entrepreneurial and Reengineering Organisation structure-process- Departmentation- Strategic Business Units (SBU)- Line/Staff authority- Empowerment- Functional authority-

Decentralization– Delegation- Effective organising- Avoiding conflict by clarification- Organisational culture.

Staffing: Definition- Systems approach to staffing- Human Resource Management- Selection process- techniques and instruments- Performance appraisal-appraisal criteria- Team evaluation approach-applying performance review software- Formulating career strategy- Training of Managers- Organisational dynamics- Managing change and organisational conflict.

Unit IV: Leadership and Motivation

12 Hrs

Leading: Definition- Approaches to Leadership- Leadership styles-Trait theories- Committees, Teams and Group decision making- Personality- Perception- Individual and group behaviour- Cognitive dissonance theory- Human factors and motivation- Theories of Motivation- McGregor's theory X and theory Y- Maslow's hierarchy of needs theory- ERG theory- Herzberg's theory- Expectancy theory- Equity theory- McClelland's needs theory- Motivational techniques-Job enrichment.

Unit V: Controlling and Control techniques

13 Hrs

Controlling function- Basic control process- Critical control points-standards- Control as a feedback system- Control of overall performance- Profit & Loss control-Control through ROI-Management audits-Balanced score card-effective control.

Control techniques: Budget as a control device-Time-event Network analysis- analytics in managing-Use of computers in handling information- Digital economy, e-commerce and m-commerce-Tools to improve productivity and TQM.

PG21T2102- MANAGERIAL ECONOMICS

Objective: 72 Hrs

To impart theoretical and practical knowledge on business decision making using the tools of economic analysis and to offer insights into the behaviour of microeconomic and macroeconomic units.

Unit I: Fundamentals of Managerial Economics 15 Hrs

Introduction to Managerial Economics- Decision making model- Role of profits- objectives of the firm- Fundamental economic concepts: Demand and Supply- Marginal Analysis. Demand Analysis: Demand relationship- Price elasticity of demand- Income elasticity of demand- Cross elasticity of demand- Combined effect of demand elasticities- Estimating demand- Business and economic forecasting- Supply Analysis- Elasticity of supply- Factors influencing supply.

Unit II: Production and Cost 15 Hrs

Production Function: Production functions with one variable input- Determining the optimal use of the variable input- Production functions with multiple variable inputs- Determining the optimal combination of inputs- Returns to scale. Cost Analysis: Meaning and measurement of cost- Short run cost functions- Long run cost functions- Economies and diseconomies of scale- Cobb-Douglass Production function- Estimating cost functions- Break Even Analysis.

Unit III: Pricing and Output Decisions: Strategy and Tactics 18 Hrs

Market structures: Perfect Competition - Pure Competition- Monopoly- Monopolistic competition- Oligopoly- Oligopolistic market structures- Oligopolistic rivalry and Game Theory. Pricing Techniques and Analysis: Conceptual framework for proactive

systematic- analytical, value based pricing- Optimal differential price levels- Differential pricing in target market segments- Pricing in practice.

Unit IV: Macroeconomics: Economic Growth and Business Cycles 12 Hrs

Overview of macroeconomics- Measuring economic activity- Gross Domestic Product (GDP)-Gross National Product(GNP)- National Income (NI)-Balance of Payment(BoP)- Balance of Trade (BoT)- Foreign Exchange- Consumption and Investment- Business cycles and Aggregate demand- Money and the financial system-Monetary policy and the economy- Fiscal Policy.

Unit V: Macroeconomics: Growth and Development Problems 12 Hrs

Economic Growth- Challenge of economic development- Exchange rates and the international financial system- Open-economy Macroeconomics- Unemployment and Foundations of Aggregate Supply- Inflation- Frontiers of Macroeconomics.

PG21T2103 - FINANCIAL ACCOUNTING AND MANAGEMENT

Objective: 72 Hrs.

To impart basic understanding of financial transactions of a business entity and to help the students develop skill to understand and analyse financial problems and data to make good financial decisions.

Unit I: Fundamentals of Financial Accounting 13 Hrs

Introduction-objectives, scope of Financial Accounting- Accounting terms-Concepts & Conventions- International and Indian Accounting Standards, Generally Accepted Accounting Principles (GAAP) - Double entry system - Journal - Ledger - Subsidiary books - Trial Balance.

Unit II: Preparation of Final Accounts 18 Hrs

Preparation of Final Accounts: Trading, Profit & Loss Account and Balance Sheet - Income statement and Balance sheet in vertical form as per the Companies Act 2013 with adjustments. Depreciation Accounting: Meaning, objects, causes and factors affecting depreciation- Accounting treatment - Methods – Fixed and written-down-value (WDV) methods.

Unit III: Financial Decision 15 Hrs

Sources of long term-finance , analysis of leverage, capital structure- planning and policy – determinants of capital structure and theories of capital structure- Net Income – Net Operating Income- Traditional Approach , cost of capital – concept and computation of different costs of capital- Cost of Debt- Cost of Preference Capital - Cost of Equity capital- Weight Average Cost of Capital (WACC).

Unit IV: Investment Decision

14 Hrs

Investment Decision – nature , concepts , importance and types of investment decision- Investment evaluation criteria - Payback period method, Accounting Rate Return(ARR), Discounted cash flow methods- Net Present Value (NPV) , Profitability Index (PI), Discounted Payback method and Internal Rate Return(IRR)- - Project appraisal under Risk and Uncertainty - Conservative methods and modern methods of Risk analysis.

Unit V: Dividend Decision and Working Capital Management

12 Hrs

Dividend Decision – nature and concept of dividend decision, types of dividend, Dividend theories – Walter’s Model, Gordon’s Model, The Miller- Modigliani (MM) Hypothesis, relevance of Dividend policy under market imperfections-objectives of Dividend Policy – forms of dividend – bonus shares- stock split- buyback of shares

Working Capital Management: Concepts of working capital- operating and cash conversion cycle- Permanent and variable working capital – determinants of working capital-issues in working capital management- estimating working capital needs- sources of working capital.

PG21T2104- COMMUNICATION SKILLS

Objective: 72 Hrs.

To prepare students for today's communication challenges in business organisations with special emphasis on current communication technology.

Unit I: Introduction to Business Communication 14 Hrs

Introduction: Communication in Business - Importance of Communication- Effective business communication-formal and informal communications- grapevine- communication at work place - using technology to improve business communication- concept of knowledge management-Mastering listening skills –Improving non-verbal communication skills-Communicating in Teams-Interpersonal skills- management by walking around, - Importance of Feedback -positive and negative feedback- practising effective feedback, Cross-cultural communication challenges in a global field.

Unit II: Writing Process, Messages and Meetings 14 Hrs

Writing Process: planning, analysing the situation-gathering information-selecting the right medium- adapting to the audience- first draft- revision- editing and review- usage of technology-proof reading- creating brief messages – writing routine and positive messages- drafting negative messages- writing persuasive business messages- developing marketing & sales messages- drafting effective email messages- creating effective business blogs-creating podcasts-distribution of blog and podcast content- Meeting-drafting of Notice, Agenda and Minutes.

Unit III: Proposals and Reports

14 Hrs

Planning informational reports- Analytical reports- planning proposals- Composing reports – Drafting based on style /tone to suit audience- Helping readers- Use of technology in reports/ proposals- revising reports and proposals- submitting proposals.

Research Reports: The written research report- executive summary, introduction, methodology, findings and conclusions- writing the draft- oral presentation- preparation, delivery and audio visuals, Presenting results and report writing- precautions for report writing- norms for using tables, charts, diagrams- appendix- norms for using Index and Bibliography- Format of Business documents.

Unit IV: Presentation skills

14 Hrs

Oral presentation: audience analysis- composing presentation- preparation to speak- overcoming anxiety- handling questions responsively-communicating across cultures- enhancing presentations with slides and other visuals- creating effective handouts- practicing the delivery- Designing a visual communication- identify points to illustrate- visual design principles- presenting information/ concepts/ideas-

Unit V: Developing CVs and Attending Interviews

16 Hrs

Organising approach to employment process- Planning a Resume'- writing a resume- writing application letters- follow ups- understanding the interview process—common types of interview- Preparing for a job interview- interviewing for success- interviewing across borders- following up- Letter of acceptance- letter declining an offer- avoiding miscues.

PG21T2105 - HUMAN RESOURCE MANAGEMENT

Objective: 72 Hrs

This course imparts the basics of planning for human resources and emphasizes the need for management development, training and adequate compensation.

Unit I: Introduction of Human Resource Management 12 Hrs

Introduction: Definition- Importance- Line and Staff Aspects- New Approaches to Organize HR- Moving from Line Manager to HR Manager. Strategic HRM- Human Resource Strategies & Policies. Ethics & Fair Treatment at Work- Measures to curb Corruption.

Unit II: Recruitment and Training 18 Hrs

Job Analysis- Human Resource Planning and recruiting-Internal sources of Candidates- Using Internal Sources - Finding Internal Candidates- Rehiring- Succession Planning, Outside Sources of Candidates- Temp Agencies- Offshoring and Outsourcing Jobs- Executive Recruiters- On- Demand Recruiting services- College Recruiting- Referrals & Walk-ins- Telecommuters- Recruiting Source Use and Effectiveness. Employee Testing and Selection- Interviewing Candidates- Training and Developing Employees.

Unit III: Performance Appraisal and Compensation 12 Hrs

Performance Management and Appraisal- Coaching, Careers and Talent Management- Establishing Strategic pay plans- Pay for Performance and Financial Incentives- Benefits and services.

Unit IV: Labour Legislation & Employee Relations in India 18 Hrs

Labour Legislation in India- Constitution of India and Labour Legislation- Labour Jurisdiction of Central and State Governments- Laws Related to Industrial Relationships- Laws Related to Wages- Working Hours, Conditions of Service and Employment- Equality and Empowerment of Women- Social Security- Guidelines for Handling Sexual Harassment Complaints- Special Economic Zone and Labour Laws- Application of Labour laws to the IT/ITES. Labour Relations & Collective Bargaining- Employee Safety and Health.

Unit V: Cultural Diversity and Multicultural Teamwork 12 Hrs

Cultural Anthropology and International Business: Nature of Culture, Cultural Predispositions, Cultural Dimensions- Hofstede's and Trompenaars' Framework, Managing and Motivating across Cultures, Leadership across Cultures, Communicating across Cultures- Influence of Culture and Language. Multicultural Teams- Work Values.

PG21T2106 - MARKETING MANAGEMENT

Objectives: 72 Hrs

To orient the students towards the significance of marketing tools and market research in order to sustain in a challenging and competitive business environment.

Unit I: Introduction to Marketing 15 Hrs

An Overview of Marketing-Strategic Planning for Competitive Advantage-Marketing Mix-Ethics and Social Responsibility-The Marketing Environment-Developing - Business Marketing-Segmenting and Targeting Markets-Decision Support System-Marketing Research-Market Decision Support System-The Role of Marketing Research-Steps in Marketing Research-Secondary Data-Market Research Aggregators-Planning the Research design-Specifying the Sampling Procedures-Impact of Internet on Market Research-Scanner Based Research.

Unit II: Product and Promotion Decisions 15 Hrs

Product Concepts-Meaning-Types of Consumer Products-Product Items, Lines and Mixes-Branding-Packaging-Global Issues in Branding and Packaging-Product Warranties-Developing and Managing Products-Importance of New Products-The New Product Development Process-Global Issues in New Product Development-The Spread of New Products-Product Life cycles- The role of Promotion in the Marketing Mix- The Goals and Tasks of Promotion- Advertising and Public Relations-Sales Promotion and Personal Selling.

Unit III: Services Marketing 12 Hrs

The Importance of Services-How Services differ from goods –Intangibility-Inseparability-Heterogeneity-Perishability-Service Quality-The Gap Model of Service

Quality-Marketing Mixes for services-Services Strategy-Place (Distribution) Strategy –Promotion Strategy-Price Strategy-Relationship Marketing in Services-Internal Marketing in Service firms-Global Issues in Services Marketing-Non-profit Organization Marketing.

Unit IV: Distribution Decisions 15 Hrs

Marketing Channels-Channel Intermediaries and their Functions-Channel Structures-Making Channel Strategy Decisions-Types of Channel Relationship-Managing Channel Relationships-Channels and Distribution Decisions for Global Markets-Channels and Distribution Decisions for Services –Supply Chain Management-Retailing.

Unit V: Pricing Decisions 15 Hrs

Pricing Concepts-The Importance of Price-Pricing Objectives-The Demand Determinant of Price-The Power of Yield Management System-The Cost Determinant of Price-Other Determinants of Price-Setting the Right Price-How to Set a Price on a Product-The Legality and Ethics of Price Strategy-Tactics for Fine-Tuning the Base Price-Product Line Pricing-Pricing during Difficult Economic Times.

SEMESTER – II

1. Quantitative Techniques for Business
2. Cost and Management Accounting
3. Management Information System
4. Maritime Business Environment
5. International Business
6. Export and Import Documentation

PG21T2201 - QUANTITATIVE TECHNIQUES FOR BUSINESS

Objective: 72 Hrs

To train students in statistical methods and techniques of operations research, to provide solutions for business problems in decision-making. It also imparts knowledge of use of computer software such as Excel and SPSS to solve various quantitative problems.

Unit I: Introduction to Statistics 12 Hrs

Data and Data Sources- Descriptive statistics: Tabular and Graphical Presentations; Numerical Measures: Measures of location, Measures of variability –Introduction to probability: Conditional probability; Bayes' Theorem- Discrete Probability Distributions; Binomial probability distribution, Poisson probability distribution- Continuous Probability Distribution; Normal probability distribution- Spread sheet and statistical package

Unit II: Correlation & Regression, Time Series and Index Numbers 15 Hrs

Correlation: Significance of the study of correlation- Types of correlation- methods of studying correlation- Karl Pearson's coefficient of correlation- Probable error, coefficient of determination- Rank correlation coefficient- Correlation versus Regression. Regression Analysis: Uses and Regression Lines- Regression equations- Standard error of estimate. Time series analysis: Utility and components- measurement of trend. Index Numbers- Price Indexes- Quantity Indexes- Spread sheet and statistical package.

Unit III: Sampling, Statistical Inference and Quality Control 15 Hrs

Introduction to sampling distributions- Simple Random sampling- Stratified random sampling- cluster sampling- systematic sampling- convenience sampling- judgement

sampling- Interval Estimation- Determining the sample size- Population Proportion. Hypothesis Tests: Developing Null and Alternative hypotheses- Type I and Type II errors- Statistical inference about means and proportions with two populations- Inferences about two population variances- Tests of goodness of fit and independence- Experimental Design and Analysis of variance. Introduction to statistical quality Control- Statistical process control- Acceptance sampling- Spread sheet and statistical package.

Unit IV: Mathematical Models in Operations Research 15 Hrs

Meaning, Nature, Scope, Methodology, Applications and Techniques of OR- Linear Programming- Assumptions- Formulation and Graphic Solution of LP- Simplex method- Solution to Maximisation Problem- Solution to Minimisation Problem- Duality and Sensitivity Analysis- Spread sheet and statistical package.

Unit V: Stochastic Models in Operations Research 15 Hrs

Queuing theory- Queuing Models- Network Analysis- Resource Analysis and Allocation- PERT and CPM- Simulation models- Process of Simulation- Monte Carlo Simulation- Simulation of an Inventory System- Simulation of Queuing System- Advantages, disadvantages and applications of Simulation- Spread sheet and statistical package.

PG21T2202 - COST AND MANAGEMENT ACCOUNTING

Objective: 72 Hrs

This paper provides awareness to management students about techniques to be adopted to make strategic decisions on optimum use of resources and cost control

Unit I: Introduction 12 Hrs.

Introduction: Cost Accounting - Concept of Cost Centres - Cost Units - Classification of Cost – Overheads- Simple Cost Sheet – historical and estimated cost sheets. - Tenders and quotations - Contract costing- Activity based costing (ABC).

Management Accounting: Meaning and Definition - Nature and Scope - Objectives of Management Accounting - Importance and Limitations - Management Accounting vs Cost Accounting.

Unit II: Marginal Costing and Break even analysis: 12 Hrs.

Marginal Costing and Cost-Volume-Profit (CVP) analysis: meaning, concept - assumptions and practical applications of Break-even analysis – decisions regarding sales mix - make or buy - limiting factor - export decision - plant merger - shut down of a product line- Du Pont Analysis.

Unit III: Budgeting and Budgetary control 15 hrs

Budget and Budgetary Control: Meaning, - establishing a system of Budgetary Control - Preparation of Sales - Production - Cash Budget - Fixed and Flexible budgets, Master budget - Zero based budgeting (ZBB)-Performance budgeting

Unit IV: Analysis of Financial Statements

18 Hrs

Analysis and Interpretation of Financial Statements: Objects-importance-Types of financial analysis - Comparative statements - Common size statements, Ratio analysis - Preparation of Balance sheet using ratios

Fund flow analysis: Fund flow statement-Preparation-Cash flow statement-cash flow analysis - Analysis of income statements of ports/shipping companies.

Unit V: Standard Costing and Variance Analysis

15 Hrs

Standard Costing and Variance Analysis: Meaning of Standard Cost- Relevance of Standard Cost for Variance Analysis – Significance of Variance Analysis – Computation of Standard Costs for Materials, Labour and Overhead Variances- Comparison between Budgeting and Standard Costing – Variance reporting- Responsibility Accounting – Meaning and Objects – types of Responsibility Centres- Management Reporting

PG21T2203 - MANAGEMENT INFORMATION SYSTEM

Objective: 72 Hrs

To acquaint management students with various tools of information technology to support data management in a business unit.

Unit I: Introduction to Information Technology 12 Hrs

Introduction- IT and management opportunities and challenges- IT agility- Consumerisation- Competitive advantage-Strategic planning and models- Information management & IT Architecture – IT Architecture & infrastructure, cloud computing and services, Virtualization and Virtual Machines.

Unit II: Database Management 15 Hrs

Database Technology- Data warehouse- Data Mart Technologies- Data and Text mining- Business Intelligence & Analytics, Digital and physical document management. Networks, collaboration & sustainability: Business IT networks & components, wireless network applications, communication technologies – Sustainability and Ethical issues. Cyber security: cybercrimes, vulnerabilities and threats- Fraud- Internal control- Business Control and Auditing.

Unit III: Digital, Mobile & Social Commerce 15 Hrs

E-Business & E-Commerce Models and Strategies – challenges and types- E-Procurement- E-Government & public sector- Support services- Ethics and legal issues. Mobile Computing Technology and Mobile Commerce- Transactions and Financial services- Mobile Enterprise Application. Social Media: Virtual communities and social networking services- social media- social networking services- social media metrics.

Unit IV: Enterprise Systems & Analytics

15 Hrs

Functional Area & Compliance systems: Management levels and functional systems- Enterprise Systems and applications: Enterprise systems, Enterprise Resource Planning (ERP), Supply Chain Management (SCM), Collaborative Planning, Forecasting, and Replenishment system (CPFR), Customer Relationship Management (CRM). Performance Management: Data visualization, Mashups, and Mobile intelligence, Fleet Management Information System.

UNIT V: Business Process and Project Management

15 Hrs

Business Process and Project Management: - Architecture & IT design, System development, Software & Applications for management (Business software tools), Support system. IT Ethics & Responsible conduct: - Responsible conduct, overload, culture of distraction and New Tech revolution.

PG21T2204 - MARITIME BUSINESS ENVIRONMENT

Objective: 72 Hrs

This paper brings out the interrelationship between the socio economic environment and legal premises in which the maritime business exists and governance of the same through international conventions

Unit I: Maritime Environment 14 Hrs

Environment: Environmental system and economic system - Marine and Coastal environment, Elements of conventions- Athens Convention- IMO conventions - SOLAS – MARPOL-STCW- MMC- safety construction – fire protection & prevention – safety equipment – radio communication – safety of navigation – ISM code - IMDG code–prevention of operational pollution – oil cargo pollution – limitation of pollution following an incident- Port State Control - Director General of Shipping regulations and The Merchant Shipping (Amendment) Act, 2014.

Unit II: Law of Contract 13 Hrs

Law of Contract: nature of the contract- offer and acceptance, consideration, capacity of contract, free consent, legality of object, agreements not declared void, contingent contracts, Performance and discharge of contract, remedies for breach of contract- quasi contras.

Unit III: Law of Agency and Bailment 15 Hrs

Law of Agency: definition of agent and principal, classification of agents – relationship of Principal and Agent- duties and liabilities of principal –delegation of authority, relations of principal with third parties and termination of agency.

Bailment: Definition, essential requisites of bailment, classification of bailment, rights and duties of bailor and bailee, termination of bailment. Contract of indemnity and guarantee- kinds of guarantee – rights of surety, discharge of surety.

Unit IV: Sale of Goods and Taxation 20 Hrs

Sale of goods: Formation of Contract – essentials, classification of goods , conditions and warranties- express and implied conditions and warranties, transfer of property – property, possession and risk, performance of contract- delivery of goods – rights and duties of the buyer, rights of an unpaid seller- remedies for breach of contract of sale – auction sales.

Tax on goods and Services: Central Excise – Customs Law – Basic concepts – types of customs duties, Anti-Dumping duty, safeguard duty, Service Tax – nature of service tax – service provider and service receiver, Central Sales Tax act and VAT act.

Unit V: Carriage of Goods by Land, Sea and Air 10 Hrs

Carriage of goods by land: classification of carriers – types of goods, Carriage by rail: responsibility of railway administration as carriers. Carriage by Sea: Contract of affreightment - Charter Parties – kinds and form of charter parties –bill of lading – kinds of bill of lading , Mate' receipt- delivery of goods- ship owner's lien.

PG21T2205 - INTERNATIONAL BUSINESS

Objective: 72 Hrs

This paper familiarises the students with international trade practices and institutions; and the recent developments in international trade and policy.

Unit I: International Business 15 Hrs

World Business: a brief overview- Globalisation and Strategic Management. Multinational Enterprises (MNEs)- Nature of MNEs- Strategic management and MNEs- Framework for global strategies. Triad and International Business- Reasons for Foreign Direct Investment (FDI)- FDI and trade by triad members- Regional business strategy of multinationals.

Unit II: Environment of International Business 15 Hrs

International Politics-Political ideologies and economics- Economic integration and strategic management- Importance of culture in different business contexts- Theories of international trade- Theory of absolute advantage- Theory of comparative advantage- Factor endowment theory- International product life cycle theory- Barriers to trade- Non Tariff barriers to trade- Determination of the exchange rate- Foreign money and capital markets- Regional money and capital markets.

Unit III: International Business Strategies 15 Hrs

Introduction to multinational strategy- Strategic orientations- strategy formulation- strategy implementation- Strategic management and organizing strategy- Production strategy- Generation of goods and services- international logistics- global production systems- International market assessment and Marketing strategy. International Human Resource Management and Labour relations- International Operations

Management- International Financial Management- International Accounting and Taxation.

Unit IV: Economic Integration, Cooperation and International Economic Organisations 15 Hrs

Economic Integration and Regional Integration Agreements (RIA): European Union (EU)- North American Free Trade Agreement (NAFTA)- Economic integration of developing countries- Association of South East Asian Countries (ASEAN)- Asean Free Trade Area (AFTA)- Evaluation of RIAs- Role of WTO. South-South Cooperation: Problems Facing the South- Economic Cooperation among Developing Countries (ECDC)- Global System of Trade Preferences (GSTP)- South Asian Association for Regional Cooperation (SAARC)- South Asian Preferential Trade Agreement (SAPTA)- Indo-Lanka Free Trade Agreement- Indo-Singapore Comprehensive Economic Cooperation among Developing Countries (CECA)- IMF- World Bank- International Development Association (IDA)- International Finance Cooperation (IFC)- Asian Development Bank (ADB)- United Nations Conference on Trade and Development (UNCTAD)- United Nations Industrial Organisation (UNIDO)- WTO- GATT- Uruguay Round- WTO Agreements- Salient Features of UR Agreements- Intellectual Property Rights (IPRs) and Developing countries.

Unit V: Trade Policy and Performance of India 12 Hrs

Trade Regulation and Promotion: External Sector Reforms- Regulation and Promotion of Foreign Trade- Foreign Trade Policy- Export Promotion- Import Substitution. Trade and Balance of Payment (BoP) of India: An overview of merchandise trade- Foreign

trade through plans- Determinants of Exports and Imports- Major problems of India's export sector.

PG21T2206 - EXPORT AND IMPORT DOCUMENTATION

Objective: 72 Hrs

To provide the students with an adequate knowledge on formalities for export trade, and the documentation process required for import and export.

Unit I: Introduction to Export and Import 12 Hrs

Basics of Exports - Classification of goods - Preparation for Exports - Methods of Exporting - Export Marketing Organizations - Functions - Registration formalities - IEC Number - Procedure of obtaining IEC Number - RCMC (Registration Cum Membership Certificate) –Export Credit Guarantee Council (ECGC) - Application for import and export of restricted items.

Unit II: Documentation Framework and Contracts 15 Hrs

Aligned Documentation System: Commercial Documents - Auxiliary Commercial Documents - Regulatory Documents - Documents related to goods - Documents related to Shipment - Documents related to Payments - Documents related to Inspection - Documents related to Excisable Goods - Types of Contracts - Export Contracts.

Unit III: Payments and Finance 15 Hrs

Factors - Methods of receiving Payment - Instruments of Payments-Letter of Credit-Pre-shipment Finance - Post-shipment Finance - Post-shipment Credit in Foreign Currency - Negotiation of documents with bank - CENVAT - Duty Draw back

Unit IV: Quality Control and Clearance of Cargo 15Hrs

Objective of Quality Control - Methods - Procedure for Pre-shipment Inspection - Role of Clearing and Forwarding Agents – Role of Inspection Agents-Clearance of Cargo - Central Excise Clearance Procedure - Central Excise Clearance Option - Shipment of Export Cargo.

Unit V: Customs Clearance, Risk and Insurance Policy 15 Hrs

Customs Clearance of Export Cargo - Customs Clearance of Import Cargo - Risk: Types - Types of cover issued by ECGC - Cargo Insurance. Processing of an export order - Major laws governing export contract.

5. Warehouse & Inventory Management
6. Geography of Transport Systems

PG21T2301 - LOGISTICS AND SUPPLY CHAIN MANAGEMENT

Objective: 72 Hrs

To introduce students to vital logistics functions comprising distribution, transportation, material handling and storage system and to give them an understanding of basic logistics principles to ensure competitive advantage in the industry.

Unit I: Introduction 10 Hrs

Introduction to Logistics-Logistics and Competitive Strategy-Competitive advantage-Gaining competitive advantage through logistics-The mission of logistics management-The Supply chain and competitive performance-The changing logistics environment.

Unit II: Customer Service and Measuring performance 16 Hrs

The marketing and logistics interface-Customer service-Customer service and customer retention-Service-driven logistics system-Setting customer service priorities-Setting service standards-The concept of total cost analysis-Principles of logistics costing-logistics and the bottom line-Logistics and shareholder value-Customer profitability analysis-Direct product profitability-Cost drivers and activity based costing.

Unit III: Benchmarking and Managing the Supply chain 16 Hrs

Meaning of benchmarking-Benchmarking the logistics process-Mapping supply chain process-Supplier and distributor benchmarking-Setting benchmarking priorities-Identifying logistics performance indicators-Managing the Global Pipeline-The trend towards globalization in the supply chain-The challenge of global logistics-Organization for Global logistics-The future.

Unit IV: Strategic Lead-Time and JIT Management

15 Hrs

Time based competition-The concept of lead time-Logistics pipeline management-
logistics value engineering-The lead time gap-Just In Time (JIT) and quicker response
logistics-The Japanese philosophy-Implications for logistics-Quick response logistics-
vendor managed inventory-Logistics information system-Logistics system dynamics-
Production strategies for quick response.

Unit V: Managing the Supply Chain

15 Hrs

Creating the logistics vision-The problems with conventional organizations-
Developing the logistics organization-Logistics as the vehicle for change-The need for
integration-Managing the supply chain as a network-Process integration and ECR-Co-
makership and logistics partnerships-supplier development-Leading edge logistics.

PG21T2302 - ELEMENTS OF PORT MANAGEMENT

Objective: 72 Hrs.

To familiarize the fundamental functions, operations, ownership and management structure of the ports and terminals.

Unit - I: Port Structure and Functions 15 Hrs.

Definition - Types and Layout of the Ports – Organisational structure-Fundamental observations. Main functions and features of ports: Infrastructure and connectivity - Administrative functions - Operational functions. Main services: Services and facilities for ships - Administrative formalities - Cargo transfer - Services and facilities for cargo - Additional “added value” service- Ports and their stakeholders like PHO, Immigration, Ship agents, Stevedores, CHA.

Unit - II: Port Operations 15 Hrs.

Berths and Terminals - Berth Facilities and Equipment - ship Operation - Pre-shipment planning, the stowage plan and on-board stowage - cargo positioning and stowage on the terminal - Developments in cargo/container handling and terminal operation - Safety of cargo operations - Cargo security: Measuring and evaluating performance and productivity.

Unit - III: Port Development 10 Hrs.

Phases of port development - Growth in world trade - Changes in growth - Development in terminal operation. Shipping technology and port: Ship knowledge - Ship development and port development - Port time and ship speed - Other technical development affecting port.

Unit - IV: Regulatory Framework for Ports 15 Hrs.

Global regulatory organisations: Conventions and Reports. Environment regulation: Port environmental pollution - Environmental Management System - HAZMAT (Hazardous Materials) - BWM (Ballast Water Management). Port Security: ISM, ISPS, Occupation Safety and Health Administration - ISO1400.

Unit - V: Port Administration Ownership and Management 17 Hrs.

Port ownership structure- Types of port ownership and administration - Organizations concerning ports - Boards governing the ports - Port management development - Rise and fall of Ports - information technology in ports. Port ownership in Indian context: Acts governing the Ports in India - Port ownership structure in India. Port reform: Framework for port reform - Evolution of ports in a competitive world - Alternative Port Management Structure and Ownership Models.

PG21T2303 - ELEMENTS OF SHIPPING MANAGEMENT

Objectives: 72 Hrs.

To make the students understand the commercial, operational and technical components of ship management.

Unit - I: Functions of Shipping 10 Hrs.

Ship: Types of ships - Principal dimensions - Ship's tonnages (GT, NT, DWT) - Cargo carrying capacity. Ship owners, operators and managers: Ship manager - Structure of ship owning and management organizations - Ship's personal - Agents.

Unit - II: Ship Registration, Classification and Insurance 17 Hrs.

Registration - Types of registries - Flag - Classification - Port State Control - Inspections - Surveys - Conditions of survey and inspections - Other surveys. Insurance: Hull and machinery insurance - General average - Salvage - Third party recoveries - Claims and handling - Protection and indemnity.

Unit - III: Operations and Voyage Estimation 15Hrs.

Cost and accounting: Ship management cost function - Budget preparation - Account processing and reporting. Operations: Voyage planning - Hires and freight - Commissions - Commercial operations. Voyage Estimation: Length of the voyage - Commencing the voyage estimates - tankers - Time charter - Practical calculations - Voyage estimates. Bunkering.

Unit - IV: Cargo and Geographic Factors 15 Hrs.

Dry cargoes - Non-bulk dry cargoes - Stowage factors - Dangerous cargo and IMDG Code - Bills of lading and cargo claims - Liquid cargoes - Tank cleaning - Petroleum

products - Chemicals - Liquid gas carriers - Ullage, deadfreight and slack tanks - Geography and metrology - Routing services - Load lines.

Unit - V: Crew Management and Ship Manager's Legal Relations 15 Hrs.

Crew management: Recruitment, training and placement of officers and crew on board - Marine crew travel - Compliance of ISPS code - Knowledge management on board and on shore. Ship manager's legal relations: Management contracts - Legal problems - Arrest in Rem - Freezing orders - Freight and hire payments - Dealing with Port Agents and Chartering Brokers.

PG21T2304 - CONTAINERISATION AND MULTIMODAL TRANSPORT

Objective: 72 Hrs.

This subject is tailored to deliver theoretical and practical knowledge in handling methods, transportation modes and various conventions pertaining to carriage of cargo. Containerisation is taught in the perspective of growing importance of transportation in world trade.

Unit I: Basic Concepts of Containersation 12 Hrs.

Meaning - Major Container Trades - Container Operators - Container Ships - Terminal - Consideration of Container Terminal Planning - Container Distribution - Container types - ISO Container Dimension by types - Non- Containerisable cargo - Features of Containerization - Equipment for non-containerisable cargo.

Unit II: Cargoes 15 Hrs.

International Trade Distribution - Stowage: Meaning - Stowage of cargo - Factor Consideration - Types of cargo - Characteristics - Cargo and Container handling equipment - Types of Packing- Marking of cargo - Dangerous Cargo - IMDG Code – Classes.

Unit III: Multi-Modalism 15 Hrs.

Multi-modal Trade Routes - Evolution - Basic Intermodal System - Modal Interface - Factors outline why shipper favour Multi-modalism - Factors in Development - Features -Multi-Modalism Strategy – Components.

Unit IV: Physical Multimodal Operations 15 Hrs.

Liners - Tramps - Specialized Vessels - Terms - Road transport vehicle - Road Transport Weight and Measurement - Rail Transport Vehicle and Equipment - Air

Transport - Ports - LCL - FCL - NVOCC - Freight forwarders - Consolidator - ICD - CFS- Free Trade Area - SEZ - Factors affecting mode and route choice.

Unit V: Conventions Relating to Multimodal Transport 15 Hrs.

Cargo Liability Convention: International Conventions relating to Bill of Lading (The Hague and Hague/Visby Rules (Appendix 8) - Hamburg Rule - Convention relating to Through Transport operation by Land, Rail, Air - Conventions relation to Dangerous Cargo - Carriage of Perishable Goods - International Convention for safe containers 1972 (CSC).

PG21T2305 - SHIPPING ECONOMICS

Objective: 72 Hrs

To impart know-how on the economics of Sea Transport and allocation of scarce resources amongst competing uses. Cost and Revenues of shipping companies are also discussed.

Unit I: Introduction to Shipping Economics 10 Hrs

Introduction to Shipping Economics-Sea Transport and the Global Economy-The role of sea trade in economic development-History of maritime development- The organization of the Shipping Market.

Unit II: Shipping Market Cycles 15 Hrs

Meaning and Characteristics of Shipping Market Cycle - Shipping cycles and shipping risk-Overview of shipping cycles-Sailing shipping cycles-Tramp market cycles-Bulk shipping market cycles- Lessons from two centuries of Cycles – Prediction of shipping cycles.

Unit III: Supply, Demand, Freight Rates and Shipping Markets 15 Hrs

Supply, demand and Freight rates-The shipping Market Model-Key influences on supply and demand, the demand for sea Transport-The freight rate mechanism- The decisions facing ship-owners-The Four shipping markets-The freight market-The freight derivatives market-The sale and purchase market-The new building market-The demolition market.

Unit IV: Costs, Revenue and Cash Flow of Shipping Companies 15 Hrs

Cash flow and the art of survival of shipping company-the impact of financial pressures on ship owners' decisions-Financial performance and investment strategy,

Classification of costs - cost of running ships- capital cost of the ship-Classification of revenue -Shipping accounts-methods of computing cash flow-valuing merchant ships

Unit V: Financing Ships, Shipping Companies –Risk and Returns 17 Hrs

Financing Ships and Shipping Companies-Shipping Finance and Shipping Economics-Ship Finance in the pre-steam era-The World Financial system and types of finance-Financing ships with private funds-Financing ships with bank loans-Financing ships and shipping companies in the capital market-Financing ships with special purpose companies-Analysing risk in ship finance-Dealing with default-Risk, Return and Shipping Company Economics.

PG21T2306 - SEABORNE TRADE AND MERCHANT FLEET

Objective: 72 Hrs

To provide the students a comprehensive understanding of the principles of maritime trade, the dynamics of cargo transport and the pertinent maritime regulations

Unit I: Basic Concepts and the Geography of Maritime Trade 12 Hrs

Basic concepts of seaborne trade-Geography of Maritime Trade-Value added by seaborne transport-Oceans, distances and transit times- Maritime trading network- Europe's sea borne trade-North America's sea borne trade-South America's sea borne trade-Asia's sea borne trade-Africa's sea borne trade- Sea borne trade of the Middle east, Central Asia, Russia, Australia and Oceania.

Unit II: The Principles of Maritime Trade 15 Hrs

The Principles of Maritime Trade- building blocks of sea trade- countries that trade by sea-Trade theory and drivers of trade-Difference in production costs-Trade due to differences in natural resources-Commodity trade cycles-Role of sea transport in trade- Transport of Bulk Cargoes-commercial origins of bulk shipping-the bulk fleet-bulk trades-The principles of bulk transport –Liquid bulk transport-crude oil and oil products trade-Major dry bulk trades- minor bulk trades.

Unit III: Transport of Specialized and General Cargoes 15 Hrs

Transport of specialized and general cargo –Meaning- Sea transport of chemicals – LPG trade- LNG trade-Transport of refrigerated cargo-Unit load cargo transport-Passenger shipping-Transport of General cargo-Meaning-origins of the liner service-Economic principles of liner operation-General cargo and liner transport demand-Liner shipping routes-liner companies-liner fleet-principles of liner service economics-

Pricing liner services-Liner conferences and co-operative agreements-Container ports and terminals.

Unit IV: The Ship Providing Transport-the Design 12 Hrs

The Ship that provides transport –derived demand for ships-Seven questions that define a design-Ships for general cargo trades-Ships for the dry bulk trades-Ships for liquid bulk cargoes-Gas tankers-Non-cargo ships-Economic criteria for evaluating ship designs.

Unit V: Economics of Shipbuilding & Ship Breaking 18 Hrs

The role of merchant shipbuilding and scrapping industries- Regional structure of world shipbuilding- Shipbuilding market cycles-economic principles-shipbuilding production process-Shipbuilding costs and competitiveness-ship recycling industry-Regulation of the Maritime Industry-How regulations affect maritime economics-Overview of the regulatory system-Classification societies-The law of the sea-The regulatory role of the flag state-How maritime laws are made-IMO-ILO-regulatory role of coastal and port states-regulation of competition in shipping.

SEMESTER – IV

1. Port Economics
2. Shipping Finance and Insurance
3. Chartering and Ship Broking
4. Public Private Partnership and Port Development

PG21T2401 - PORT ECONOMICS

Objective: 72 Hrs.

This paper focusses on the economics of Port operations interface the decisions made by Port users and Providers of port services.

Unit I: Introduction 12 Hrs

Introduction to Port economics –Theory of Port-Vessel port calls: networks- Vessel port calls: world country and vessel type-Ports and Economic development- Containerization –world container ports-Port users’ and service providers-Users: Carriers-Users: Shippers and passengers-Service providers-Port in operation-A Container port-A Cruise port-Specific ports in operation.

Unit II: Carriers, Shippers, Passengers 15 Hrs

Resources-Operating options-Output- cost-Pricing-Carrier demand in port-Ports and ship size-Port choice and shipping lines-Shippers-Business logistics management- Supply chain management-Shipper demand in port-Port choice and shippers-Port choice and supply chains-Supply chain shipping capacity-Passengers-Passenger time prices-Transportation demand by ferry passengers-Transportation choice and ferry passengers-Passenger demand in port-Port choice and passengers.

Unit III: Port Operating Options, Costs and Prices 15 Hrs

Operating options-Resource utilization and congestion-Production and capacity-Cost-Costing port throughput-Port output measures-Effectiveness- operating objectives- Port prices-Port taxes versus User fees.

Unit IV: Port Governance and Performance 15 Hrs.

Port Governance-Port privatization-Port governance in practice-Agglomeration-Port and cities-Performance evaluation: A single port perspective-Performance evaluation: A multi-port perspective-Port Competition- Water pollution-Air pollution.

Unit V: Port Investment, Finance and Pricing 15 Hrs.

Financial Statements and Ratio measures-Port Costs and costing-Types of Port Costs-Logistics costing-Analysis of Port costs from the perspective of Users-Economic versus commercial appraisal of port investments-Economic Appraisal-Commercial Appraisal of Port Investments-Project Risks and Risk Analysis-Port Financing and Private sector participation-Economic benefits of private sector participation-Public-Private Partnership-Port Pricing-Port Pricing Strategies-Port Pricing practices.

PG21T2402 - SHIPPING FINANCE AND INSURANCE

Objective: 72 Hrs.

To provide a complete reading on ship financing, mortgage terms, conditions and mortgagee's rights, including a full description of documentation, legislation and registration procedures required.

Unit I: Introduction 12 Hrs.

The shipping cycle - Shipping cycle and loan finance decision - Main sources of shipping finance-Issue of shares- types of shares- listing of shares in International stock exchanges. International element - Ship registration - The different types of registry - Bareboat charter registration. Loan: Types of loan - Hedging risk.

Unit II: Financing, Sale and Purchase of Second Hand Ship 15 Hrs.

Second-hand ships: Types of lender - Loan and guarantee facilities - International element - Loan agreement provisions – Execution - Standard security in ship financing- Registration of security- Equity –Mezzanine finance – Islamic finance options. Sale and Purchase – introduction – MOA and delivery-standard forms of MOA- Norwegian Sale form – standard documents.

Unit III: Financing of New Ship and Banker's Perspective 15 Hrs.

New buildings: Financing options – Government support – the OECD and the EU- the SUECS- Promissory note – Letter of commitment –Letter of guarantee. Shipping market - Assessing shipping risk - Choice of finance for ship owners - Term sheet and risk analysis. Basic principles of good lending –documentation of guarantee - Sources of security and guarantee for loan.

Unit IV: Financial Market Products and Ship Mortgage 15 Hrs.

Financial products: meaning – interest rate hedging products- currency hedging products – Freight hedging products – tying in hedging products to a ship finance facility – accounting issues. Ship mortgage: Types and Terms of mortgage - Basic rights required by a mortgagee - Standard mortgage provisions - Mortgages in the most important ship registration jurisdictions.

Unit V: Insurance in Shipping and Ship Financing 15Hrs.

Marin insurances as security for ship financing – insurance covenants - insurance documentation- insurance renewals – underwriting security, insurance claims – marine insurers and Protection and Indemnity (P&I) - marine liability insurance terms of P&I cover - bankers' insurances- insurance of other interests (lessors, ship owners and passive investors) - Mortgage rights insurance

PG21T2403 - CHARTERING AND SHIP BROKING

Objective: 72 Hrs

To provide an in depth understanding of activities relating to Ocean transportation, Chartering and the financials of Voyage estimation

Unit I: Principles of Chartering 12 Hrs

Introduction to Chartering: Chartering-Voyage Charter-Time Charter-Chartering Negotiations-Chartering and the internet-Charter Parties-Construction of voyage charter parties-Loading place and cargo-Loading rates-Lay days and cancelling date-Cost of loading and discharge-Bill of lading-Terminology and abbreviations-Time charter-The agents influence upon the charter-The port agents' role in charter party negotiations.

Unit II: Dry Cargo Chartering 15 Hrs

Dry Cargo Trades & Ships- Dry Cargo ship tonnages, Loadline, Dimensions and cargoes-Propulsion-Cargo—Ship Documents and Classification-Classification-Freight Markets and Market Practice-The Baltic Exchange-Methods of ship employment-Chartering negotiations-Offering and countering- Charter parties-Subjects-Freight Derivatives for Dry cargo.

Unit III: Tanker Chartering 15 Hrs

Tanker Chartering Trade & Ships-Geography for tanker chartering-The Market structure-Origin and use of world scale-Average freight rate Assessment-Factors influencing the Freight Markets-Oil Demand-New building Activity-Tanker Scrapping-Chartering Market Practice-Cargo description-World scale hours terms and

conditions-Production of charter party-Demurrage and dispatch-Contract of Affreightment-Tenders.

Unit IV: Financial Elements of Dry cargo Charter Parties 15 Hrs

Voyage Chartering-Cargo size-Alternative means of calculating freight-Dead freight-Freight Taxes-Commissions and Brokerages-International Brokers Commission Contract-Time Chartering-Voyage Estimating-Computerization-Estimate form-Itinerary-cargo quantity-Expenses-Income-Result-Time Charter Estimating-smaller tonnage.

Unit V: Financial Elements of Tanker Charter Parties 15 Hrs

Freight-Demurrage-Commissions-Methods of Freight Payment-Arbitration-Warranty of Authority-Bills of lading-Freight Futures for Tankers-Voyage Estimating-Route-Port Time-Bunkers-Port Disbursements-Insurance and Crew Expenses-Lump sum rate-Time charter.

PG21T2404 - PUBLIC PRIVATE PARTNERSHIP AND PORT DEVELOPMENT

Objective: 72 Hrs.

To introduce the unique characteristics, models, financial approach, institutional and legal framework and lessons learned from the PPP projects.

Unit I: Introduction to PPP 12 Hrs

Definition - History - Roles - Benefits - Output-based approach - PPP and Privatization - PPP Models - Indian Scenario - Stumbling Blocks - Government initiative - Policy framework - Partnership architecture - Procedural network - Institutional structure.

Unit II: Risk Identification and Financial Approach 15 Hrs

Risk: Identification - Mitigation - Allocation. Financial Approach: General Factors - Deciding determinants - Financial involvements - Sources and tools - Cost components and financing sequence.

Unit III: Contractual, Legal and Regulatory Framework 15 Hrs

Contractual Framework: Concession contract's Features - Concession contract and a Commercial contract - Concession arrangement - Critical issues - Unsolicited proposals - Contractual Structure. Legal Framework: Existing legal framework - Infirmities. Regulatory Framework: Regulatory body - Functions Contracting out regulatory functions - Regulation by contract - Indian Scenario - Independent regulators.

Unit IV: Infrastructure

15 Hrs

Salient Features - Importance - Types - Commercialisation of Infrastructure - Infrastructure and Environment - Infrastructure and the poor- Policy framework - Indian Scenario - Phases of project development - Slow progress.

Unit V: Indian Port Sector and PPP Projects

15 Hrs

Indian Ports: Major ports - Corporate ports - Non-major ports - Changing Trends Port Management Models. Indian Ports and PPP: Nhava Sheva International Container Terminal - Kakinada Deep Water Port - Gangavaram Port.
